

They're Eating Your Lunch

With their trade laws

With trade today you get:

- Half-baked pay and benefits
- Dangerous products and toxic toys for your kids
- Loss of good jobs for everybody

It's time to end unfair trade that puts us all at risk.

Call the U.S. Capitol Switchboard – **202-225-3121**
and ask for your Senators or Representative by name.

Tell 'em that it's their job to stop these poison products before they get to our shores. Only a change in the way we do trade can protect our families and our jobs. Urge them to support the Food and Product Responsibility Act.

For more info: www.protect-our-kids.org

Unless they act now, many members of Congress may find themselves on voters' take out menu this year.
